COMPANY PROFILE

always the best

ABOUT US

Oguzhan Narrow Weaving, which started its activities in Denizli in 1999 with a few narrow weaving machines, can be described as a journey of quality in service and production, extending to sector leadership in Turkey and Europe today.

Behind the success of Oguzhan Narrow Weaving, which extends to the international level, there are sustainable textile production principles that express commitment to people, environment and society with its production power that constantly aims for the new and better.

Oguzhan Narrow Weaving implements the principles of "Sustainable Textile Production" by using environmentally friendly technologies and raw materials, thus aiming to contribute to making the world a better place.

ABOUT US VISION

As Turkey's leading elastic manufacturer, to have a say in the European and world markets with our production power. To make the most important requirements of the textile industry more comfortable and more aesthetic with our understanding of sustainable and high quality production. In the beginning, our goal is to turn the original innovative ideas circulating in our dreams into reality in the most useful way, to set an example in our sector, to set quality standards, to be sought after by customers by offering bright ideas to producers who are open to innovations.

ABOUT US MISSION

To make the most important requirements of the textile industry more comfortable and more aesthetic with our understanding of sustainable and high quality production. With its experienced staff, Oguzhan Narrow Weaving continues its production by adapting to the developing technology with the aim of providing quality products to our valued customers. We continue to supply the elastic needs of our customers with the pride of our quality products and reliable service.
